"WHEN I AM DEAD," HOLT'S PLEA IN VERSE

1908. Several verses follow:

When I am dead

When I am shad

And broken hearliess so is of earth
Will mark shiere last I seemed to be;
Petago-I cannot know-there still
the neard the voice of peaks for me.
Oh, Lord up, God, high me is afring
In trais much, in lances long!
For me, who lives in longer great,
All praises then whi come too late.

When I am dead

If I the silence of the touth
Could break I would not think to stay
The eager hand or ionserved brugue;
But saily I to all would say
'Rearest, flowers no you cast
No fragrams' to hours past
Belated worth of love and teats
Will hover ease the broken years."

SAYS J. P. MORGAN

More Dynamite Sent to Terrorist Still Unaccounted For.

PRISONER SHOT, KEEPER INSISTS

Letters Morgan Assailant Left at Ithaca May Reveal Clew to Aids.

ANARCHISTS SCATTER

Authorities in Eastern States Guard Public Buildings After Warning from New York.

face of the millpond by the small boy's pebble expand and expand, so the circle of known activities of Frank Holt, whose attempt to kill J. P. Morgan led to the exposure of his plan to create a nation-wide reian of terror, expanded yesterday. First, it developed that he had planned to dynamite the American

liner Philadelphia and the Cunarder Saxonia at sea. Second, it was shown beyond a doubt he was Erich Muenter, the Harvard instructor wanted for the

murder of his wife. Third, in Ithaca the police discov ered a mass of correspondence dating from 1906, the time of his wife's death, to the close of the college year. indicating that he was a much more active man than previous discoveries had indicated. This correspondence is now on its way to Police Headquarters, where it should arrive not later than to-morrow. In it may be found clews that will lead to the discovery of accomplices or accensories in his dynamite plots,

Fourth, on the advice of the New York police, the authorities in practically every large city in the East, particularly in state capitals, had put extra quards on public build

Fifth, known anarchists, alarmed by the investigations started by the Holt case, had begun to seek cover away from their usual haunts.

Sixth, and most startling of all, hat instead of a few sticks of the dynamite Holt is known to have possessed being missing, 100 pounds of an entirely different lot have to be accounted for.

Frank Holt, dead, shocked the police and shipping interests of two continents into a terment of activity yesterday when through a letter received by his wife in her Dallas, Tex., home, it became known that he had attempted to sink the Cunarder Saxonia and the American liner Philadelphia at sea, with almost 1,000 passengers, by bombs timed to explode when they would be far from aid.

Vessels Still Safe.

Early this morning both vessels are affoat and safe, so far as wireless reports to Europe and this side could show. The chances are as 100 to 1 that the ships will escape the peril he sought
